Plastic Bottles	2.50	20.00
Cans	4.50	19.50

Monthly Carbon Report

Our goal is to help all our clients reduce their waste, carbon and costs. This report can support you on the journey to minimise waste and maximise recycling potential. It is a useful tool created each month that allows you to monitor the amount of recycling and general waste that your business produces, the amount of carbon diverted as a result of recycling and the overall recycling rate achieved.

If you are committed to achieving your sustainable goals and you're looking for more support or perhaps you need help to get started on setting goals and targets - contact your Client Relationship Manager at CRM@changeworksrecycling.co.uk and we can introduce you to the range of tools and support that will guide you on the journey.

DISCLAIMER: Please note that the weight of the material collected is calculated by using average weights of bags or bins for the respective material. If you want a more accurate measurement, please contact your Client Relationship Manager or our service team to schedule a waste audit.

CARBON DIVERTED

Mercat Tours Ltd. EH1 1QR - PC7099 December 2023 02

Carbon Diverted	December 2023	Total since
	(kg)	January 2023
		(kg)
40L Glass Caddy Uplift	11.33	487.00
Paper	6.35	69.81

RECYCLING RATE

1 - System Redesign

Redesigning the internal bin layout can maximise your recycling rates and reduce the risk of recyclables going to general waste.

2 - Stickers and Posters

Labelling your bins and putting up posters significantly reduces the risk of contamination and confusion over where materials go.

3 - Staff Training & Enhanced Communications

Using clearly labelled bins is not difficult, but there is often a lot of confusion regarding which materials go where and why. Staff training can help reduce confusion and in turn the risk of contamination.

Please contact your Client Relationship Manager or our service team to schedule a site visit to implement these changes.
